

What you should know before applying for video lottery terminals (VLTs):

Eligible Sites - To apply for VLTs, sites must have applied to Saskatchewan Liquor and Gaming Authority (SLGA) for a tavern or restaurant (with a lounge endorsement) liquor permit with a minimum 30 seat capacity (390 square feet of continuous useable floor space) in the age-restricted area. The approval of VLT sites is conditional on having an age-restricted liquor permit that meets minimum seat and space requirements. Seasonal sites are not eligible. Sites located in the Northern Saskatchewan Administration District (NSAD) should contact LGS prior to completing the VLT application as additional eligibility requirements must be met. By applying for and/or keeping VLTs on your site, you agree that all information in respect of your liquor permit and VLT site will be shared between LGS and SLGA on an ongoing basis for the purposes of administering the VLT Program.

Site Commission - Sites receive 18 per cent of net sales, which is cash into the VLT less cashout tickets.

Float - A minimum cash float of \$1000/VLT is required in order to pay cashout tickets at the players' request. Cash float requirements may vary and need to be adjusted based on experience.

Minors – Persons under 19 years of age are prohibited from accessing or viewing the play of VLTs, this includes both inside and outside of the site. If the liquor permit has a Daily or Sunday Family dining endorsement, VLT access to minors must be restricted.

Automated Banking Machine (ABM) Placement - The placement of an ABM in a site with VLTs must be approved by LGS. The overall objective of this policy is to have the ABM in the most socially responsible location available to the site.

Advertising - A standardized 'VLTs HERE' exterior and interior sign will be provided to be installed on site property or placed in a window. New VLT Game Promotion images will be provided that can be used, subject to acceptable use standards, on your website, social media, signage and mailouts. No other advertising is allowed.

of VLTs - New sites receive three VLTs, as they become available.

Communication Requirements

- a. All VLTs must be connected to a Site Controller within the site. It is the site's responsibility and cost to install the required communication cable.
- b. The Site Controller must be connected to the central operating system (typically through a dedicated telecommunication line). The activation of an existing line and the monthly charges are covered by LGS. However, LGS does not pay for the installation of a new line. Once your application has been reviewed, the connectivity at your site will be investigated. If installation of a new line or a cellular solution is required, a quote will be provided to you. If you are unwilling to pay the installation cost, or if no connection to the central system can be established, your application will be declined.

Electrical - It is the site's responsibility and cost to install the required electrical circuits. One will be required to power the site controller and additional circuits are required to power every four VLTs. A representative will assist you in identifying where these outlets will need to be located once your application has been approved (110 volt 15 amp, dual outlet receptacle, no other equipment plugged into or grounded to these circuits).

Security Cameras – One or more cameras will be installed above the VLTs at your site. The recording is not a live feed, but rather will be stored at the site and downloaded by WCLC as required.

Foot Print - The approximate size of the VLT, on a base, is 31" wide, 30" deep and 6'6" high. In addition a site controller (display, computer, and printer) will need to be available for staff use. (*display: 10"w x 12"h x 7.5"d; Computer: 11"w x 4"h x 12"d; Printer: 5"w x 5"h x 7"d*).

VLT Training –VLT training on basic maintenance, cleaning, care, operation and accounting will be provided at the time of installation. In addition, it is mandatory that at least one owner or site manager receive certification in the Responsible Gaming for VLT Site Operators online course.

VLT Bank Account - Sites will be required to provide WCLC bank account information and authorization to withdraw the Government's share of the VLT funds.

Deposits & NSF's – Sites are required to remit the Government's portion of VLT sales, on a weekly basis, through the VLT bank account. Late deposits result in escalating NSF fees and eventual contract termination. Lost or stolen cash is the responsibility of the site. It is imperative that business procedures are established to ensure the security and timely deposit of funds.

Video Lottery Terminal (VLT) Program Application Guide

Thank you for expressing interest in participating in the Lotteries and Gaming Saskatchewan (LGS) Video Lottery Terminal (VLT) Program. Please know that applying to participate in the VLT Program does not guarantee approval. In addition, you must obtain a valid Restaurant with Lounge or Tavern Liquor Permit from the Saskatchewan Liquor and Gaming Authority (SLGA) to be eligible to participate in the VLT Program. The approval of VLT sites is conditional on having an age-restricted liquor permit that meets minimum seat and space requirements. Seasonal sites are not eligible. Sites located in the Northern Saskatchewan Administration District (NSAD) should contact LGS prior to completing the VLT application as additional eligibility requirements must be met. By applying for and/or keeping VLTs on your site, you agree that all information in respect of your liquor permit and VLT site will be shared between LGS and SLGA on an ongoing basis for the purposes of administering the VLT Program.

If you have purchased a site that currently has VLTs, please note the VLTs will not be enabled under the new permittee until the liquor permit has been issued, the VLT application has been approved, and the necessary training has occurred. If any of the above mentioned has not occurred, the VLTs will be disabled until completed.

Please complete the enclosed VLT Site Contractor Agreement and application forms described below (**mandatory fields are highlighted in red**):

- VLT Site Contractor Agreement – qualification and ongoing participation in the VLT Program is governed by the terms and conditions outlined in this agreement. The document is a three party agreement between the permittee, LGS and Western Canada Lottery Corporation (WCLC). WCLC is the corporation designated to conduct operations of the VLT Program in Saskatchewan. As a VLT Site Contractor it is important you have a thorough understanding of the covenants you agree to by signing the document. The agreement must be signed by an owner. In the case of corporate ownership, it must be signed by a signing authority, officer, director, or a shareholder.
- VLT Site Designation of Authority – all VLT sites must designate a Site Manager responsible for the management of the operation of the VLTs at the premises. In addition, authorization can be given for specific information and responsibilities to other individuals.
- VLT Floor Plan Requirements & Site Floor Plan – please ensure all items requested on the VLT Floor Plan Requirements form have been detailed on the floor plan and included in your submitted application.
- Automated Banking Machine (ABM) Placement Approval – the placement of all ABMs within the liquor permitted area must be approved. If you do not have an ABM, you are still required to complete this form.

Once your application has been reviewed and approved, WCLC will contact you to obtain banking information and authorization for payment of the weekly invoice. In addition, it will be WCLC that will arrange for VLT installation and/or training of your staff.

Please note that any delays in submitting your VLT Application may result in delays in your Liquor Permit being issued as a single inspection will be conducted for both VLT and Liquor Permitting purposes.

If you have any questions regarding the application please contact the VLT Program at (306) 787-9493.
